

DARE TO COMPARE...

**The difference is attention to detail.
The payoff is PERFORMANCE & VALUE!!**

AudioLink IItm Personal Listening System

Compatible with commercial 95KHz Infrared systems
(ADA compliant systems installed in thousands of Theatres,
Cinemas, Concert Halls, Houses of Worship, Museums,
Schools & other public venues)

Automatic power switching
(prevents wasted listening time and conserves battery life)

Audio MUTE when IR signal is blocked or
absent (prevents unpleasant blasts of white noise.)

115dB low distortion, high fidelity audio
(ear canal oriented transducers mean clearer, more intelligible
sound with less gain.)

Balance & Tone control for each ear
(tool adjusted for professional fitting; tool included)

Hypoallergenic silicone earpads w/replaceable
cerumen filters (promotes better ear hygiene)

Polypropylene arms
(Practically Unbreakable while flexible and compliant)

Drop-in and side charging slots
(facilitates convenient transmitter placement)

Industry standard cables
(facilitates custom installations; avoids
expensive special-order replacements)

Includes two rechargeable battery packs
(up to 20 hours combined listening time)

Includes TV microphone
(for jackless TV's, awareness of environmental sounds or portability)

Optional side table charging stand
(for convenience or users with mobility challenges)

2 year warranty
(guarantees your clients' VALUE)
